RE: F2FEC SOULFUL THANKS

Dear Katrina:

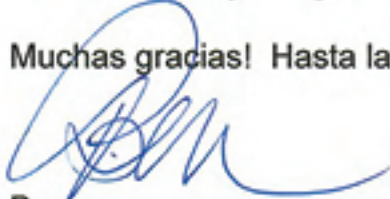

It is with thanks and appreciation that I write this letter to express just how important and inextricably tied you and your presentation were to the success of F2FEC SOUL.

Sharing your knowledge with others is key to helping an industry evolve and you revealed to the people in the room a piece of yourself and gave them each a unique perspective and ideas to examine. Thank you.

The feedback from our attendees has been overwhelmingly positive and heartfelt. My personal, biased opinion and net-take-away from F2: it was wonderfully satisfying to see people allowing their heart and mind to be touched and inspired.

On behalf of my Amigo brothers....

Muchas gracias! Hasta la vista!

THANK YOU

for Being In The Room!
